## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-23, drawn to compounds of formula I; composition and method of treatment using said compounds, classified in classes 514, 546, various subclasses.
- II. Claims 24-48, drawn to bioassay methods (i.e., binding assays), classified in class 436, subclass 500+; also class 435, subclass 7.1+.

The inventions of groups I and II are drawn to different methods of uses, which are unrelated. The method in group I is *in-vivo* while that of group II is *in-vitro*. The search for group I depends on the search for formula I whereas the search for group II is independent from that of formula I. Thus, a burden of searching exists for separate on-line searches.

A telephone call was made to Ms. Sarah Reinhard on 5-9-01 to request an oral election to the above restriction requirement, but a written restriction is requested.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
